

제품 사양서

품 명 및 규 격	수량	설치장소
입자분광계 (THE DUST DECODER)	1	실기실 201a호

<p>1. Warranty : 1 year</p> <p>2. Set-up and education should be performed by the provider or the manufacturer at end-user site.</p> <p>channel or more at the same time.</p> <p>2. Dust Spectrometer have to measure the PM10, PM4.0, PM2.5, PM1.0 mass concentration from Number Sizer distribution with light scattering method for Ambient air or Indoor Air.</p> <p>II. Configurations of goods</p> <ol style="list-style-type: none"> 1. 30 Channel or more Real time Dust Spectrometer(PM10, PM4.0, PM2.5, PM1.0) 1 ea 2. Storage Battery(internal or External) 1 ea 3. Operation manual 1 ea 4. 32/64 bit Software for Dust Spectrometer 1 ea 5. PTFE Filter 3 ea 6. Collection Substrate Spray for PTFE Filter 3 ea <p>III. Performance and Specification</p> <ol style="list-style-type: none"> 1. Portable Dust Spectrometer <ol style="list-style-type: none"> 1) Size Range : 0.25 μm or smaller to 35 μm or bigger 2) Concentration : 2,000,000 particle/liter or more 3) Number of Channel : 30 Channel or more 4) Mass concentration : 0.1 $\mu\text{g}/\text{m}^3$ more lower to 1,500 $\mu\text{g}/\text{m}^3$ or higher 5) Measurement mode : Number, TSP, PM10, PM2.5, PM1 6) Reference Filter : 47mm PTFE Filter 7) Sample flow : 1.0 liter/min or higher 8) Data interface : RS-232 or USB or more 9) Data Storage : 1 MByte SRAM internal card or higher <p>IV. Remarks</p> <ol style="list-style-type: none"> 1. Warranty : 1 year 2. Set-up and education should be performed by the provider or the manufacturer at end-user site.
